

Hello, to whom it may concern XM Radio is not bothering anyone who listens to it, it has many committed listeners I am one of them I feel if xm wants to offer traffic and weather let them do it this is a good thing because you can get the weather instantly you people that control what can and can't be heard need to shove off we all like what we pay for thats why we use XM Radio I personally love my XM Radio and don't know what id do if I didnt have it because of the commercial free programing and everything it offers my goodness give the public what they pay for and shove off.
